

# APPLICATION FOR FREE ELECTRICITY PROGRAM

Before you fill out the information below, please read these simple guidelines first. In order to make our program work, we must enforce the following few rules:

1. You must apply for a residence. No businesses or commercial properties are allowed!
2. If you are applying for a residence, but you do not own the home, you must have the signed permission of the owner.
3. There is only one unit permissible per residence. It must be within the US or Canada.

We are very grateful for your cooperation and will be delighted to add you to our list of homeowners in line to receive free electricity if and when we are successful with this program.
